

# Ulysses 1.2.2 – The Yellowstone Update

## General:

- Fixes all known issues with and crashes on Youknowwhat

## Quick Export:

- Icons now have tool tips
- Won't stretch images to full width in built-in HTML styles

## External Sources:

- Ignores .rtf, .html and hidden files
- Remembers setting for Markdown link style

## Misc.:

- Sheet table search: "Quoted search expressions" now match complete words only
- Now ignores `<div>` elements when importing HTML
- Fixes an issue where sheets would not get auto-saved after a split
- Fixes several minor crashes and UI issues
